SANTA ANA, CALIFORNIA, MONDAY EVENING, JANUARY 22, 1912.

50 CENTS PER MONTH

WILL BALLOT TOMORROW NIGHT

Expected That Decision For
Poly High Site to Be Made
at That Time

NEW OFFERS HAVE
BEEN TURNED IN

Two Additional Sites For
Grammar School Have Been
Submitted to Board

Tomorrow evening the Board of Education and its sites advisory committee will take a ballot on the selection of a site for the new polytechnic high school. Something might come up that would cause the matter to be postponed, but at the present time the ten board members and committeemen believe that the location will be settled upon.

It has been generally understood this will be done by the majority vote of the ten. It seems to be understood that after the ten have voted upon the matter and reached a conclusion by a majority vote, the school board as a school board will then vote in accordance with the decisive vote of the ten. This presents a possibility of an unusual situation. The Board of Education might be in the position of voting on the record in favor of a site when but one member of the board really favored that site. This condition might arise—not to say that it will—by the five members of the advisory committee and one member of the school board voting for site No. 1, for instance. The remaining four members of the school board might be very much opposed to site No. 1, yet site No. 1 would carry on the joint ballot by a vote of 6 to 4. The joint ballot thus having been taken, the school board is then expected to hold a business session and by its vote alone make the site the choice of the school board.

The general understanding that the school board and the advisory committee would ballot jointly was given by the remarks of the president of the board, W. L. Duggan, who at the meeting of the school board on Jan. 5 stated that the school board intended that the committee would vote with the school board on an equal footing in the selection of the site. Two members of the school board have since stated that Duggan's statement was entirely without authority, that there was never any motion passed that would allow of any such construction, that their understanding of the duties of the advisory committee was that it should make an investigation and a recommendation to the school board, which should be treated with unusual consideration by the school board but not as binding.

The question as to whether or not the school board will accept the majority vote of the ten as its vote may have to be thrashed out tomorrow evening before there is any voting on sites.

There is a strong feeling among two or three members of the school board that President Duggan has attempted to dominate the school board in this matter is the gist of a story that has leaked out. Along with this story comes the story that President Duggan selected the advisory committee. On the night the school board met to select the advisory committee, President Duggan stated to the school board that he had seen Messrs. Zimmerman, Rutherford, Tedford, Anderson and Robbins and that they had agreed to be the advisory committeemen. The other members of the school board were somewhat aghast. The committee had been selected for them, and the men selected were all good men and true, so the school board ratified Duggan's selection by voting to appoint the five men that Duggan had seen.

The question as to the sewerage of the Stafford tract on East Chestnut having arisen in the discussion of the sites, City Engineer Finley was called upon for a statement of the situation, and Mrs. Smart, secretary of the board, has received this memorandum: "Basement on Chestnut avenue can be sewered to present sewer. "Basement in next block south can be sewered by extending line to Main street. "Basement on south side of tract can be sewered by extending line to Gist tract."

More Sites Offered
When the meeting is held tomorrow evening a number of new offers will be up for consideration, and it may be that some of the school board, which is composed of W. L. Duggan, Mrs. W. M. Smart, Mrs. E. B. Norman, J. M. Cain and H. G. Dean, or the advisory committee, which is composed of W. A. Zimmerman, H. T. Rutherford, W. B. Tedford, J. N. Anderson and O. M. Robbins, will want more time to consider the new offers.

As yet S. J. Jackman and W. L.

Federal Court Criticized By Mine Workers

INDIANAPOLIS, Jan. 22.—The federal courts were criticized in two resolutions adopted by the United Mine Workers of America. One instructs the miners' officials to confer with the national officers of other unions to investigate the movement leading to plans for the enforcement of anti-monopoly laws. The second asks congressmen to curb the use of the injunction whereby the free speech of union organizers is alleged to be hindered. Another resolution demands the government ownership of mines.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Tuesday;
light northeast wind.

Grubb, who have been working on the proposition to get the Joy and Palmer places at the northeast corner of North Main and Santa Clara into shape for offering, have not submitted a written offer.

The secretary of the school board, Mrs. Smart, has received three new written offers for the polytechnic high school site. These have come in since the meeting on Jan. 9 when the bids were opened. One of these offers is that of John Bruns and others for the site at the southeast corner of Broadway and Santa Clara. Another is that of George R. Smith of ten acres west of Wright avenue, between East First and Fourth streets, three or four blocks east of the Santa Fe, for \$25,000. A third is an offer of twenty-two acres running south from the corner of C and East Seventeenth streets, for \$25,000. This offer comes from Joseph Yoch and C. Hoefler. Yoch formerly offered his eleven acres, but the offer was one of those early eliminated by the board and committee.

W. L. Duggan, president of the school board, this morning received from Wells & Warner, real estate agents, an offer of 15.71 acres east of the Santa Fe railroad, between East First and East Chestnut, for \$21,000. The offer states that the extension of Grand avenue would touch this property. It does not state who the owner is.

Mrs. Smart has received two new offers for grammar school site in the southern part of the city. One of these offers is from Mrs. Martha Thompson, of a tract 400 by 320 feet, between Cypress and Orange avenues, the south edge being one block north of McFadden street. The price is \$5200.

The other offer is from Hobson Bros. of five acres in East Chestnut, south side of the street somewhere between the Stafford tract and the Southern Pacific. The price is not mentioned.

CONGRESSMAN IS IMPROVING GREATLY

WASHINGTON, Jan. 22.—Congressman Sylvester C. Smith of Bakersfield is improving rapidly in his home here and is expecting soon to be able to attend sessions of congress and to make regular visits to his office. At present, while he is able to walk about the house and dictate daily to his stenographer, he has obeyed his doctor's advice to take very little exercise and to keep in the house during the cold weather. Congressman Smith is looking better than when he arrived and says he feels about as well as ever, except his heart action is weak. He is taking great interest in the work of congress and is planning for the future. The reapportionment of the State Congressional districts interested him much, and he seems to be satisfied with the way in which his district was left.

BOY BURNED TO DEATH BY POWDER EXPLOSION

LOS ANGELES, Jan. 22.—His eyes almost literally gouged from his head by flying glass, and his clothing in flames from burning gunpowder, Willard A. Louis, 11-year-old son of John Louis, ran and ran, sightless and screaming, until he fell exhausted to the ground and slowly burned to death fifty feet from his father's home at Lankershim at 9:20 o'clock Saturday morning.

A dozen persons in Lankershim heard the explosion of the glass jar filled with black giant powder which the boy was playing in the yard. No one, however, witnessed his cremation, for his father had gone to the village to purchase supplies and Willard was left alone on the place. The boy procured the jar of powder from a pantry shelf while his father was gone and was attempting to hold a celebration. He poured some of the powder on the ground and touched a match to it, without removing the jar, and the result was that the whole amount of powder was exploded.

CLEAR RECORD IS GIVEN TO DR. WILEY

House Committee Exonerates
Him on Charges of Extrava-
gant Expenditures

REMSEN BOARD HELD
TO BE LEGAL BODY

Suggests Various Reforms in
Method of Food and Drug
Inspection

WASHINGTON, Jan. 22.—The House committee on agricultural expenditures, in a mild report, exonerates Dr. Wiley on the extravagant expenditures charge. The report admits the legality of the Remsen board. It declares that such a powerful body should be created by legislative enactment instead of by executive order.

The committee declared the Remsen board was not authorized to make decisions in regard to prosecutions under the pure food law. Referring to the charge that Dr. Wiley illegally employs Dr. Rusby, the report said: "The conspiracy charged is not established. To the contrary, the accused officials were actuated solely by the desire to procure efficient assistance under terms and conditions which they believed were in accordance with the regulations of the agricultural department."

Referring to the food and drug inspection board the report says if such a board is necessary it should include Dr. Wiley and his assistants instead of McCabe and Dunley, who, the report says, "are unable to work in harmonious relationship."

The report reads: "The committee is of the opinion that the board may have been created to aid the secretary in the discharge of his duties. But it raises the question of its legality on the sole ground that the determination of the general questions to be submitted to the board by the secretary is not enjoined upon him under the law."

POSTAL FRAUDS TOOK BIG TOLL LAST YEAR

Promoters Put Out of Business
Had Secured About \$77,-
000,000 From Public

WASHINGTON, Jan. 22.—The sleuths of the Postoffice Department in the last year have put out of business promoters of fraudulent schemes which have taken approximately \$77,000,000 from an unsuspecting public.

Chief Inspector Sharp, in his report to the Postmaster General, calls attention to the fact that many of these fraud manipulators move in high social and business circles and are not known as promoters.

Under the head of convictions the report lists the prison sentences given George H. Monroe of New York, Christopher C. Wilson and his fellow officials of the United Wireless Telegraph Company, James P. Black, who conducted a fake land scheme under the name of the Imperial Development Company of New York, and Frank R. Allen, who conducted a commission merchant swindle.

During the year the inspectors made 2491 arrests, of which 429 were of postoffice burglars. The chief inspector's report shows that at the end of the year there were 84,782 cases of all classes outstanding in the field under investigation.

The policy of the department, Mr. Sharp points out, "has been to crush out the strong and powerful criminals who have grown rich at the game." This plan has served to eliminate the smaller operators.

WIRELESS STATIONS FOR PACIFIC COAST

WASHINGTON, Jan. 22.—Secretary of the Navy Meyer will ask congress for an appropriation of \$1,000,000 with which to establish five wireless stations, on the Pacific coast and in the Hawaiian Islands. One will be located at San Francisco, another at Guam, another at Panama, one at Tutuila and the last at Honolulu.

AVIATOR DIES FROM BURNS

SENLEIS, France, Jan. 22.—Lieutenant Borner, the military aviator, died yesterday from burns received while flying Friday. His aeroplane capsized three hundred feet in the air and enveloped him in flames while he was strapped to the machine.

DOUBLE TRACKS AND ADIOS DUMMY

Shoup Ready to Take Up the
Right-of-Way Matter With
Orange Committee

SANTA ANA LINE
WILL END THERE

Head of P. E. Did Not Discuss
Possibility of Extension
Northward

Just what Paul Shoup, head of the Pacific Electric, meant when he told S. J. Jackman and W. L. Grubb last Thursday that he would be ready to begin work on the extension of the electric line to Orange within a few days was that he would be ready to take up the right-of-way matter with the Orange committee. The plan is to abandon the dummy line and to build a double track from East Front street along a route east of the railroad to Orange.

Today a committee from Orange went to Los Angeles to interview Paul Shoup in order to get a definite understanding as to what Orange is expected to do. On that committee are A. Dittmer, M. Elstie, J. W. Morrison and N. T. Edwards.

It appears that Shoup and the committee from Orange have had an understanding, and that the committee has kept the matter of negotiations to itself until the time to act.

The Orange News of Saturday had the following: "An electric line from Santa Ana to Orange, with a probable extension northward later, awaits the action of the city of Orange in meeting certain conditions which are under consideration by the committee handling the negotiations. What these conditions are, the committee states, will be made public as soon as advisable."

"Mr. Shoup today personally confirmed the report published yesterday that the Pacific Electric is prepared to build at once. 'You may inform your committee that we are ready to proceed on the conditions proposed,' he replied to a News reporter's question. "What is the possibility of an extension northward at the present time?" was asked.

"I am not ready to consider that phase of the question at the present," he replied. "It will probably come up later."

A private car of the Great Northern, attached to the rear of train No. 25, was demolished. The occupants of the private car were injured seriously.

Wrecked and relief trains have left this city for the scene of the wreck. The dead and injured will be brought to this city.

The dead:
J. T. Harahan, Sr.; E. B. Pierce, general solicitor; E. E. Wright, lawyer, of Memphis; F. O. Melcher, vice-president of the Rock Island railroad.

Mr. Harahan was formerly president of the railroad on which he met his death.

None Seriously Injured
CHICAGO, Jan. 22.—Illinois Central officials report that no passengers were seriously injured in the wreck at Kinsmundy, Ill., last night, when J. T. Harahan, vice-president of the Illinois Central, and other railroad men were killed. The bodies of Harahan, Pierce and Melcher have been brought to Chicago, while Wright's will go to Memphis. The

SEATTLE HOLD-UP MADE A RICH HAIL

SEATTLE, Jan. 22.—A lone hold-up man robbed a local loan office of \$2000 worth of diamonds and escaped. At the point of a gun he forced the proprietor, D. E. Dover, into a rear room, bound him with his necktie, saying, "Make no noise or I'll blow out your brains." He pocketed several rings and walked out of the store.

DYNAMITE GRAND JURY RESUMES HEARINGS

INDIANAPOLIS, Jan. 22.—When the federal dynamite grand jury reconvened this morning, witnesses from Clinton, Iowa, Grand Rapids, Salt Lake and Los Angeles, were present. The Clinton witnesses testified as to the first alleged attempt to dynamite the bridge there.

CONNORS BECOMES SUDDENLY VERY ILL

LOS ANGELES, Jan. 22.—On arriving in Judge Willis' court to resume his trial, Bert H. Connors, charged with complicity in the plot to dynamite the Hall of Records, was taken violently ill. A physician was summoned and a recess ordered.

CROWDS DODGED BY THE ROYAL VISITORS

Duke And Duchess of Connaught Reach
New York Ahead of Time—Carry
Sixty-Seven Trunks

NEW YORK, Jan. 22.—Arriving a quarter of an hour ahead of their schedule, the Duke of Connaught, governor-general of Canada, the Duchess of Connaught, their daughter, Princess Patricia, avoided an immense crowd at Grand Central station, their private car being detached from the Canadian express outside the yards, and they entered by the Rutland express while the crowds were awaiting the other train.

They were met by the Whitelaw Reids, and motored to the latter's home with intimate friends as guests.

At the dinner tonight at the Reid home Cardinal Farley will be among the guests of honor.

Sixty-seven trunks and forty-eight bags comprise the party's luggage. This is the first British royalty to visit America since the late King Edward came incognito fifty years ago.

Princess Patricia was the first to leave the car. She shook both the hands of Mrs. Reid, who said: "So good of you to come, your highness," and repeated the remark to the Duke and Duchess.

The party included Col. Lowther, the Duke's military aid; Captain Rivers-Bulkeley, comptroller of the royal household; Miss Polly, the Duchess' lady-in-waiting, and numerous maids and valets.

For the dinner at the Reid house tomorrow night, the guest list was

PROMINENT MEN DIE IN RAILROAD CRASH

Former President of Illinois
Central Met Death on
That Road

CENTRALIA, Ill., Jan. 22.—Four persons were killed and more than a score injured when Seminole Limited No. 3, running fifty miles an hour, crashed into the rear and telescoped passenger train No. 25, on the Illinois Central, standing at the station at Kimmunity, Ill.

A private car of the Great Northern, attached to the rear of train No. 25, was demolished. The occupants of the private car were injured seriously.

Wrecked and relief trains have left this city for the scene of the wreck. The dead and injured will be brought to this city.

The dead:
J. T. Harahan, Sr.; E. B. Pierce, general solicitor; E. E. Wright, lawyer, of Memphis; F. O. Melcher, vice-president of the Rock Island railroad.

Mr. Harahan was formerly president of the railroad on which he met his death.

None Seriously Injured

Giant Poultry Corner Planned in Chicago

NEW YORK, Jan. 22.—In some circles of the produce trade it is believed a concerted effort is being made by New York members of the National Butter and Egg and Poultry associations to gain control of the entire 1912 output of poultry in the country, in order to force the price of poultry higher than it has ever been before. According to a Chicago dispatch, the entire season's "crop" to use a trade word, with the exception of a few small blocks still in the hands of speculators, has been bought up by a half dozen New York dealers, and the price of dressed fowl will go beyond 30 cents a pound as the result of their activities.

"Quite a number of eastern buyers and packers have been here for the last ten days," says the Chicago dispatch, "buying and trying to buy dressed poultry. Sales are said to have been the heaviest ever known in the trade."

"The buyers are especially anxious to get fowls, and are said to have paid 14 to 17 cents, in some cases higher."

The dispatch names as the most prominent purchaser of the Chicago storage poultry, in the effort to get control of the season's crop, sev-

DOGS OF WAR STRAIN AT LEASH

French Fleet Held in Toulon
Harbor in Readiness to Sail
Against Italy

CABINET CONSIDERS ARBITRATION OFFER

Admiral Bienaimé Urges the
Chamber of Deputies to
Drastic Action

PARIS, Jan. 22.—The French fleet is held under full steam at Toulon, awaiting Italy's reply to France's demand for an apology for Italy's action in seizing the French steamer Mauboula and capturing twenty-nine Turkish Red Cross nurses. The press is unanimously demanding that the government make a demonstration in Italian waters unless the nurses are liberated and an apology forthcoming. The cabinet has been called in special session to discuss Italy's proposition that the disputes arising from the incident be settled by the Hague tribunal. Individual cabinet members favor demanding the prisoners' immediate release.

FRANCE MUST GO LIMIT

SAYS ADMIRAL BIENAIMÉ
PARIS, Jan. 22.—"We cannot have peace except with dignity. France must demand reparation, and be prepared to go to the limit to force Italy to recognize the rights of the French people."

This was the declaration of Admiral Bienaimé before the chamber of deputies in urging immediate action for the seizure by Italy of a French liner. He was riotously applauded. Premier Poincaré replied by saying he believed Italy will liberate the twenty-nine Turkish nurses taken from the ship, and that other matters will be arbitrated.

English Vessel Stopped

CONSTANTINOPLE, Jan. 22.—The Italian cruiser Voltorno stopped the English steamship Africa near Perim yesterday and took ten Turkish officers as prisoners, including Col. Rika Bey.

3000 Turks Reported Killed

ROME, Jan. 22.—It has been learned here that 3000 Turks were killed when the port of Zozara was bombed Friday by the Italian cruisers Carlo Alberto, Cigno, Canope and Fulmine. The forts there were speedily destroyed.

NARROW SQUEAK AT DOMINGUEZ

Crawford Fell Sheer 300 Feet
—Fish Goes After the
Altitude Record

DOMINGUEZ FIELD, Jan. 22.—Harvey Crawford while attempting to qualify for a pilot's license, narrowly escaped death. Flying five hundred feet aloft his engine became superheated. The biplane dropped like a plummet. Crawford righted the craft two hundred feet above the ground, alighting on the exact spot where Hoxsey was killed. When the engine was cooler he reascended.

Undaunted by yesterday's escape from death Farnum Fish, the world's youngest aviator, appeared on the field this afternoon and announced he would try for the world's altitude record. He laughed at the cautions of older aviators, saying an air depression caused his fall and he does not expect to find another for many days yet. An overcast sky cut the attendance today, although the stands are comfortably filled.

HEROINE OF HONEY CREEK IS DEAD

BOONEVILLE, Ia., Jan. 22.—Kate Shelley, heroine of the Honey Creek flood disaster in 1881, died yesterday after an illness of six months at her home, a quarter of a mile from the Moingona bridge across the Des Moines river, the scene of her heroic deed. During a violent storm thirty years ago Miss Shelley, who was station agent at Moingona, crossed the bridge over the Des Moines river on her hands and knees at midnight in order to flag a passenger train on the Chicago & Northwestern Railroad to save it from plunging into Honey creek, over which the bridge had been washed away. For her bravery the Iowa Legislature awarded her a medal and a sum of money.

IS DROWNED IN RESERVOIR

Boy, Aged 15, Falls in Fit and
Rolls Down an Embank-
ment into Water

The Accident Occurred Near
Brea Yesterday Morning
About 11 O'Clock

Henry E. Dougall, the 15-year-old son of Mr. and Mrs. G. C. Dougall, was drowned in a reservoir near the new town of Brea yesterday morning about 11 o'clock. It is believed by the boy's parents and Coroner Winbiger that the boy fell in an epileptic fit, rolled down the embankment of the reservoir and was drowned while unconscious.

The Dougall family has been living in a tent-house. Harry has been subject to epilepsy for several years.

Yesterday morning about 11 o'clock he said that he was going to take a walk, and he was seen going toward the reservoir. Between 12 and 1 o'clock Dougall called loudly for the boy to come to dinner. Getting no answer Dougall went to the reservoir and found the body in the water close to the bank. It was evident that the boy had fallen in a fit and had rolled down the embankment.

Coroner Winbiger was called, and an inquest was held by him yesterday afternoon.

BREAKS UP A COLD IN SEVERAL HOURS

An Effective Way to Cure a Bad
Cold and End Grippe
Misery

There is not one grain of quinine in Pape's Cold Compound, which, when taken every two hours, until three consecutive doses are taken, will surely and quickly break up the most severe cold, either in the head, chest, back, stomach or limbs. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, catarrhal affections, croup, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

NOTICE

THE MYSTERY IS DEEPENED

Man Who Killed Himself at
Richfield Was Known as J.
C. Lyons at Pasadena

Nothing in His Effects to Throw
Any Light on the
Man's History

While the man who was killed at Richfield has been identified as a lodger at a Pasadena rooming house, nothing concerning his past has been learned. In the diary he wrote that his name was Frank Kalseath. A Pasadena correspondent of the Los Angeles Times writes:

The discovery yesterday that the man who last Wednesday afternoon committed suicide in Santa Ana by throwing himself across the track before a swiftly approaching train after he had scribbled, "She is coming. This is horrible," in a diary had gone there from this city, where he was known as J. C. Lyons, has only made the mystery more impenetrable.

The man, who gave the name of Lyons, and the police have doubts whether it was his right one, came to Pasadena about two weeks ago and registered at the Raymond Villa, No. 274 North Raymond avenue, as a resident of Richmond, Va. He disappeared on the 2nd inst., leaving most of his effects behind.

John W. Pickering, proprietor of the boarding house, head of the Santa Ana suicide and from the description thought the dead man must be his missing lodger. Yesterday he went to Santa Ana, identified the body, and in the afternoon telephoned to the police here that he had not been mistaken.

In the meantime the police made an examination of Lyons' effects. There were several suits of clothes and a pair of goggles, so constructed as to partially cover the face of the wearer. Nothing was found that would throw any light upon his personality. Others who live at the house learned nothing of his business or purposes in life.

GARDEN GROVE NEWS BUDGET

GARDEN GROVE, Jan. 21.—A number of Garden Grove people went over to Artesia last Tuesday to attend the annual supper given by the Citizens' Association. A splendid supper was enjoyed. Those who went over by electric car were: H. A. Lake, S. Horowitz, C. W. McKee, Roy McKee, M. W. Sweetser, James Raw, H. B. Martin, J. Houghton, Mr. and Mrs. W. L. Jencks.

The entertainment given under the auspices of the Y. M. C. A. by Prof. W. J. Cole on Monday evening was well received by an appreciative audience. A voluntary offering was taken and responded to freely.

M. Shay, who has lately sold his cottage on Ocean avenue to L. W. Allen, expects to move in a short time to Colorado where his son resides. The old Methodist parsonage which was bought by Geo. Rolfe will be remodeled and repaired and may be occupied by the present owner or be for rent.

J. S. Rennie has the work well under way on his new house south of the track, and the building which was formerly located there was bought and moved to Ocean avenue. It will be occupied by Chas. Hudson and family.

Mr. S. Bohn and Mr. Barnett have gone on a trip to Bishop in Inyo county to learn the beauties of that part of the state.

L. T. Swall of Sherman is a visitor at the home of his brother, Charles Swall.

T. H. Ingram has moved his family to Anaheim, where he will open his new garage soon.

Mrs. E. A. Ladd's new residence is enclosed and will be ready to move into soon. The house she is moving out of will be occupied by Mr. Gleason and family.

The regular meeting of the T. A. C. club will be held at the home of Mrs. Eldridge next Tuesday afternoon.

S. S. Jackson and party returned from an auto trip to San Diego Tuesday.

Mrs. T. J. Jones, wife of the pastor, will give an address at the Baptist

church Thursday afternoon, Jan. 25, 2:30 o'clock, on the subject of Missions. Mrs. Jones is well informed in regard to the subject and her address will be full of interest. There will be special music.

Wilbert German, accompanied by his wife and mother, arrived Tuesday from Ontario, Canada, for a visit with P. M. German and family. They are delighted with weather conditions here since their arrival.

At the annual meeting of the Home Tract Water Company the following officers were elected: President, Ray Landers; vice president, J. W. King; secretary and treasurer, J. G. Dunn. Other directors were E. Nearing and R. C. Umphress.

The Y. P. B. meeting was held at the home of Mrs. Steel.

Mrs. T. J. Jones, wife of the pastor, will give an address at the Baptist

church Thursday afternoon, Jan. 25, 2:30 o'clock, on the subject of Missions. Mrs. Jones is well informed in regard to the subject and her address will be full of interest. There will be special music.

Talks On Tailoring

Now that so many reduction
sales are on, it may be
asked of us—

"Why don't you put on a
clearing sale?"

Our answer is that we can't do it. We make GOOD clothes out of GOOD fabrics, and our prices are ALWAYS as low as it is possible to make them without inviting bankruptcy.

This is no intimation that anybody else's sale is not a genuine reduction sale—in fact we are confident that ALL the sales advertised are conducted honestly and afford rare opportunities for bargains.

Neither do we mean to intimate that anybody's "regular" prices are too high.

What we are driving at is simply to make it clear that you get a BIG VALUE FOR YOUR MONEY at all times if we make your clothes.

Clothes buyers will find it a pleasure to view our windows where we have on display a fine assortment of new spring fabrics, suitable for both ladies' and gentlemen's wear.

In addition to the pleasure of seeing this display, it is an instructive exhibit in clothes fabrics—the first in Santa Ana, of the new goods for spring wear. You will realize this when you see the goods—they are so different from anything ever before shown. The spring fabrics have a daintiness and beauty that make them exceedingly attractive, not alone to the young man but to the business man and the more modest dressers.

Come in and admire these goods—feel of them and test their texture—buy them now while they are newest and you can get the best selection. These goods are shown in the medium or all year 'round weights.

PASTOR RUSSELL BIDS FAREWELL TO CHINA

Chinese Quietness and Courtesy
Examples to Christendom.

The Pastor Did Not Advise Chinese to Become Identified With the Sects of Christendom—Told Them That the God of the Bible Is All-Loving and Ever-Merciful and Not a God Who Would Torture Them or Their Ancestors.

PASTOR RUSSELL

Hong Kong, China, Jan. 21st.—The Foreign Missions Investigation Committee of the International Bible Students Association spent several days in Hong Kong, Canton and vicinity. For efficiency they divided, some giving more attention to one and others to another phase of missionary interest. Pastor Russell's address to the Chinese in Hong Kong in their fine City Hall Auditorium was both helpful and encouraging. He directed special attention to the words of St. Paul, applicable to humanity in general and at the present time specially to the Chinese: "The whole creation groaneth and travaileth in pain together until now—waiting for the manifestation of the sons of God."—Romans viii, 22.

China's war experiences in recent years have been severe trials, particularly to a people of their temperament—peace-loving, gentle, courteous to each other and to foreigners. He had been told that their courtesy of manner arose, not from love and sympathy, but from law and custom centuries old. He could not judge the heart, but had sincerely wished that some of the favored race of so-called Christendom possessed in a larger degree some of the admirable traits of the Chinese—their respectful demeanor, their courtesy, civility and energy.

The God of All Grace.
It shall not be my mission, said Pastor Russell, to urge you to become identified with any sects of Christendom, nor to recommend to you any of their creeds. Nevertheless, in all of those creeds there is more or less of the most wonderful truth that ever came to the ears of humanity; but, alas! in a darker period it became so mixed with human tradition as to be today dishonoring to God and offensive to the intelligence of many. I can readily see reasons why you have not been more influenced by Christianity. Very properly your heads and hearts refused adherence and worship to One whom you were told had foreordained the eternal torment of your ancestors and all mankind except a favored few.

I may never again have the opportunity of addressing you; let me, therefore, tell you now of another Christianity of which probably you have never before heard from the same Bible used by the missionaries here and confessed by all to be God's Message, but a very different Message from that which my brethren here confess.

"Waiting For the Sons of God."
My text declares that the relief for the groaning creation waits for the manifestation of the sons of God. Jesus, as the pre-eminent Son of God, died for our sins and ascended to the right hand of Divine Majesty, where He is waiting; and meantime the groaning creation must wait also for the same thing—for the manifestation of the sons of God. Here is a matter which seems to have been for a time hidden under the rubbish of the Dark Ages—the fact that God not only foreordained Jesus, the great Son of God, to be the world's Messiah to deliver them from sin and death, but that He foreordained also the selection of a special class from amongst mankind to be the Redeemer's associates and joint-heirs in His Kingdom.

Surely all will admit with me that no god of any people has ever manifested such a love and interest in his creatures as has the God of the Bible—the God of Christianity. It is the Love of God which constrains us—draws us (not the threat of eternal torture, which has no foundation in the Bible). And His exceeding great and precious promises work in our hearts both to will and to do His good pleasure.

It is my understanding of the Scriptures that the time for making our "calling and election sure" to this Kingdom class is now very short. It therefore behooves all who desire this glorious relationship with Messiah to "give all diligence" and to "run with patience the race set before us" in the Gospel, looking unto Jesus, the Author of our faith.

The Non-elect Also Exhorted.
The wonderful blessings of our day, which make it so different from any other Epoch in the world's history, have reached even here to China, and what we already see appears to be only the beginnings of wonderful things. Evidently Divine Power has within the past century been lifting the veil of ignorance and superstition. We are just on the threshold of the New Dispensation. The Church (the elect sons of God) is about complete. The manifestation of the sons of God for the aid of the groaning creation is at hand, and Messiah's Kingdom is about to be ushered in. The blessings of the present are only a foretaste of those glorious blessings for the world of mankind.

COMING TO SANTA ANA

ROSSMORE HOTEL

TUESDAY, JANUARY 23, FROM 10:00 A. M. TO 4:00 P. M. ONE DAY ONLY.

A Well-known Specialist of the Therapeutic Institute, 946 South Broadway, Los Angeles, by request of many friends and patients, will visit Santa Ana on the above date. Every afflicted man and woman is invited to call. Consultation, Examination and advice FREE.

MARVELOUS DISCOVERY THAT CURES QUICKLY WITHOUT DRUGS.

Cancers, Tumors
A SIMPLE, SAFE, RELIABLE METHOD THAT QUICKLY CURES WITHOUT CAUSTICS OR OPERATION—NO KNIFE, NO PAIN

If you have failed to get relief from old-time methods of treatment do not despair—there is still hope and help for you.

We have successfully treated Cancers, Tumors, Goitre, Consumption, Asthma, Catarrh, Deafness, Weak Lungs, Chronic Cough, Rheumatism, Neuralgia, Piles, Fistula, all Skin and Blood Diseases, Paralysis, Locomotor Ataxia, Spinal Trouble, all Nervous Diseases, Prostatic Trouble, Diseases of the Kidney, Bladder, Nervous Debility. We give special attention to diseases of women.

Our treatment is applied directly to the affected parts. It is mild, soothing, healing and has immediate effect.

St. Vitus Dance, Stubborn Nervous Diseases

Diseases of the nervous system require the highest degree of medical skill for successful treatment. Epilepsy, Chorea or St. Vitus Dance, Paralysis in its various forms, Hysteria, Spinal Prostration and other derangements or lesions of the nerves, brain or spinal cord are usually very obstinate and often regarded as incurable. The majority of such cases are incurable by the ordinary methods, yet they yield readily by our system of treatment. The first thing in the treatment of these diseases is to locate the cause of the disease which is often obscure. Science enables us to accomplish this.

We extend a cordial invitation to every man and woman to visit our Institute and talk with us about their affliction, and to let us demonstrate to them we have employed successfully in hundreds of other cases.

Suffering Women

Among the vast number of our women patients fully three-fourths tell of having previously submitted to some painful and dangerous operation, involving in most instances the sacrifice of some important organ, and that, too, without the slightest relief or benefit, while many find their sufferings to have been aggravated and intensified.

Our treatment saves suffering women from dangerous surgical operations. It has proven efficient, reliable and successful in all manner of diseases of women. It has cured the most severe cases of inflammation and congestion of the womb, inflammation and congestion of the ovaries, ulcerations, fibroid tumors, ovarian tumors, incipient cancers, falling of the womb, irregular, profuse, painful menstruation, etc.

The remarkable success of this modern painless treatment has been attested to by scores and hundreds of cured patients, while its value has been attested to and endorsed by some of the most prominent medical writers in the country.

NOTICE TO CONTRACTORS

The building committee of the First M. E. church of Santa Ana, Cal., will receive bids for the remodeling of and additions to the church according to plans and specifications on file at F. W. Weissman's store, 114 West Fourth street, or at the office of the architect, Norman P. Marsh, Room 213 Broadway Central building, Los Angeles. All bids must be delivered sealed and shall be accompanied by a certified check equal to five per cent of the amount of the bid, made payable to the treasurer of the building committee, J. G. Quick. Bids must be filed with the secretary of the committee on or before 7:30 p.m., the 12th day of February, 1912, at which time said bids shall be opened at the church. The committee reserves the right to reject any or all bids.

By order of the committee, GEO. F. HEHL, Sec.

DANGEROUS TO BE SAFE

Firearms Are Plenty at Newport Beach Since the Bank Was Robbed

Newport News: It has been dangerous to be safe around this city at night since the safe in the bank was blown up. Monday night three local men were said to have fired a revolver several times while out celebrating. Anyway the shots were heard and West Newport was aroused. Jake Souder grabbed his trusty muzzle loader and George Peabody his 41 Cols and went in search of these doing the shooting. George soon found himself looking down the none too steady muzzle of Jake's shotgun but no damage was done. The next night two foreigners applied at the residence of Mrs. Saunders on Thirtieth street for a drink of water. Mrs. Kroschel, a neighbor, seeing them, became frightened and went to the Saunders home for safety. A short time afterward Mr. Kroschel came home from Los Angeles on an earlier car than expected and finding his house locked and his wife gone proceeded to crawl in to a window. The women at the Saunders cottage, becoming alarmed, went across the street and informed John King, the former mayor, that a burglar was in Kroschel's house. King took a shot at Kroschel with his revolver as soon as he appeared on the porch, but the bullets went high over his head.

The back-firing of the gasoline engine at the electric light plant has caused many citizens to lie awake since the robbery, although the noise was not noticed before.

Lew H. Wallace, vice-president of the State Bank of Newport, says that this makes three times his bank has been robbed, once in Minnesota and twice in Newport Beach. At the former hold-up in this city the men got away with \$1200 and Wallace's gold watch. The timepiece was afterward recovered from a pawn shop in Los Angeles but the man who pawned it proved an alibi by showing that he was in the penitentiary when the Newport bank was blown up. Pieces of the watch were found in the sack full of money dropped by the bandits Saturday night. It was blown into a hundred pieces. The watch has never been any good as a timepiece since the last explosion but was a keepsake, having belonged to Wallace's father. Wallace says that none of the men who robbed his banks have ever been caught but that men who held up another bank in Minnesota a short time after his bank was robbed were caught on account of the man in the bank dropping a bottle of nitro-glycerine and getting killed. The two other men waited the bank and were caught. There were two white men and a negro and they were thought to be the men who robbed Wallace's bank.

Mr. Wallace will replace the wrecked safe with a cannon ball Victor manganese steel safe with a screw door, to open which safe

crackers will have to blast through eight inches of drill-proof steel, and hopes that his bank will be let alone for a while. The new safe purchased Thursday at a cost of \$1400 has inside dimensions of 22x22x14, weighs 3800 pounds and is cast in two pieces. It has three separate time locks, any one of which will open the door independent of the other two.

NO CAUSE TO DOUBT

A Statement of Facts Backed By a Strong Guarantee

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk. Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhea, nausea, griping, excessive looseness, or other undesirable effects.

They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus over-coming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents and 80 tablets 50 cents. Remember, you can obtain Rexall Remedies in Santa Ana only at our store, The Rexall Store, Wheeler & Ma-teer Drug Company, 194 West Fourth street.

FINDS IN HIM OLD OFFENDER

Dick Sharp, Pencil Thief, Admits Selling Fred Wilkes' Bicycle

Constable Jackson has found that Dick Sharp, held to answer in the superior court on a charge of burglary, is a man for whom Jackson has a warrant given him in 1910. Sharp is held for stealing pencils from the La Habra schoolhouse. He was caught in the act, and will be prosecuted on that charge.

The warrant held by Jackson was issued on the complaint of Fred Wilkes, a rancher on the San Joaquin. In 1910 Sharp, then tramping through the country, was given a job by Wilkes. Wilkes sent him in to Santa Ana to get a bicycle that Wilkes had left at a bicycle shop to be repaired. Sharp failed to return with the bicycle.

Wilkes has identified the man in jail as the man who worked for him. Sharp admits taking the bicycle, and says he sold it near Riverside for \$3 or \$4.

BIG CROWDS SEE FLYERS

Several Narrow Escapes, But No One Was Hurt Yesterday

LOS ANGELES, Jan. 22.—The biggest crowd that ever flocked to an aviation meet in California got all the thrills at Dominguez field yesterday that had been promised it. Thirty thousand admissions were checked at the gate.

Young Farnum Fish, the novice of the meet, lost control of his Wright biplane, just over the spot where Hoxsie fell a year ago, and plunged beam ends downward for 200 feet before he righted himself. Lincoln Beachey reeled over the field in loops and swoops and spurs like a drunken sailor on roller skates. No such flying had ever been seen on the Pacific coast.

Only instinctive airmanship and a cool head saved young Fish. A down draft caught his upper plane as he was rounding a corner and depressed the left tip until it pointed almost vertically. "Oh! Oh! Look what's happening!" shrieked a horrified woman as the biplane slid downward at a terrifying angle.

"Aw, he's only making a dip," answered her companion. But the answers knew better. They gasped with relief when Fish straightened out and sailed for a landing spot at the upper end of the field.

The only accident of the day was unnoticed by a majority of the spectators. In a depression north of the field, behind the hangars, Elton was driven downward by a puff of wind and fell unhurt twenty-five feet to a ploughed field. He walked back to his quarters, leaving his wrecked plane, a tangle of wires, splinters and bagging canvas, behind him. Atwater had a collision with the fence in front of the grandstand in landing, but the total damage was two fence posts uprooted.

No records were broken, and, unless some one touches new altitude none is likely to be. There is only one low-powered monoplane on the field, and monoplanes hold all speed records. As for duration, the latest figures far overlap the two and one-half hours of the daily program.

This is Ladies' day at Dominguez field and as a special feature of the aviation meet this afternoon Neal Cochran and Miss Leona Cowan will be married in Glenn Martin's aeroplane opposite the grandstand and will start on their honeymoon trip in the flying machine. They will probably go to Catalina Island.

NOT THE ONLY ONE

There Are Hundreds of Santa Ana People Similarly Situated

Can there be any stronger proof offered than the evidence of Santa Ana residents? After you have read the following, quietly answer the question.

William Thursby, 417 E. Walnut St., Santa Ana, Calif., says: "Off and on for years I was bothered by my back and kidneys. To stoop or walk a little distance made the dull, heavy ache in my back more severe and my rest was badly broken. Further evidence of fault with my kidneys was shown by a heavy sediment in the kidney secretions. Reading about Doan's Kidney Pills, I got a box at Dean's Drug Store and soon after I commenced their use, I noticed improvement. My back became strong and free from pain and the difficulty with the kidney secretions was corrected." (Statement given March 8, 1907.)

A Permanent Cure
On August 16, 1909 Mr. Thursby was interviewed and he said: "I have not changed my opinion of Doan's Kidney Pills since I recommended them over two years ago. The cure they effected has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NOTICE TO HUNTERS

THE INWARDNESS OF PILES

The Cause Is Inside. Use HEMROID, the Inward Remedy

—Inward treatment is the secret of the successful cure for piles. HEM-ROID, sold by the Rowley Drug Co. and all druggists under a strict money-back guarantee of satisfaction.

HEM-ROID (sugar-coated tablets) acts inwardly, and lives up circulation of blood in the flabby, swollen parts, curing permanently where salves, etc., only give relief.

HEM-ROID costs but \$1 for 24 days' medicine. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

Witty Irish Cleric

Among the clerical humorists of Ireland, Father James Healy stands out prominent. On one occasion when a pretty child was proudly shown him by her mother, he remarked: "My dear child, you'll have a blue lookout as long as you live!" The mother's face at first clouded, but immediately after brightened up when she saw the smile on Father Healy's face, for the child had blue eyes. Once Father Healy was asked how he would describe a Scotsman, and in answer, assuming as he spoke the Scot's accent, said: "A Scot is a mon who keeps the Saw-bath and everything else that he can git."

Blind Girl's Poultry Yard

Recently the writer had the pleasure of meeting a young Scotch girl who though almost blind is active and accomplished to a very remarkable degree. One of her principal interests is her poultry yard, and there her almost unaided efforts have met with truly wonderful success.

Her yearly balance sheet shows substantial and increasing profits, while the care of her birds proves a source of much interest and provides a good deal of healthy outdoor exercise. She keeps careful and accurate accounts, a Braille slate being used for memoranda. She uses a typewriter for correspondence.—Featherhead Life.

IS PRESENTED AS AMENDED

Telephone Franchise Ordinance Comes Up For Consideration Tonight

The Pacific Telephone & Telegraph Co. has filed with City Clerk Burke an amended copy of the ordinance proposed to be passed granting the company a franchise in Santa Ana.

This amended copy bears provisions asked for by a committee of the City Trustees, and will come up for consideration at the meeting of the City Trustees tonight. It is understood that representatives of the telephone company will be present.

Among the added provisions is one that the poles and conduits of the telephone company may be used by the city for fire alarm or police systems, and that the company shall furnish the city with ten individual telephones, free for the period of the franchise, thirty years.

THE NATIONAL ORANGE SHOW

SAN BERNARDINO, Cal., Jan. 22.—The most beautiful and magnificent exposition of the citrus fruit industry ever seen in America will be the Second National Orange Show, to be held in this city, February 19 to 24.

It is not a local enterprise, but is intended to uphold and benefit the citrus fruit interests in every part of the state. Not only will there be a marvelous display of all kinds of citrus fruits, but an equally large exhibit space will be devoted to the exhibition of appliances used in the citrus industry, such as box making machines, irrigation devices, clippers, ladders, picking sacks, and a thousand and one other devices.

Every section of California will be represented in fruit exhibits, from Butte county on the north to the Mexican line on the south. Arizona will also be on hand, while exhibits have also been assured from Louisiana and Florida. The show will be national in scope as well as name.

The space devoted to exhibits is five times that used in last year's show and practically every foot is already reserved.

For the week of the National Orange Show the Gate City will be in holiday attire and will be host to tens of thousands of Californians and other thousands of the Eastern tourists spending the winter beneath the balmy skies of sunny Southern California.

RAINBOW IS A BACK NUMBER

It Is Put Out of the Running By the Varied Coloring in Men's Socks

"The rainbow isn't in it now with the socks worn by men," said between stations, an elevated railroad guard to his neighbor on the platform, and he continued:

"Just glance in there, will you, and let your eye range along at the men's feet. Purple, green, yellow, blue, red, gray, pink and black socks, and socks of one color with spots of another and socks with stripes in 'em and cross-bars and socks of various colors mixed, and I'll bet with all those colors that knock heck out of the rainbow you see that one pair there with no color in 'em plainest of all? Sure, it's that pair of white socks, the only pair in the car; and you might travel here day after day and not see another pair."

"They tell me, and I can just remember a little of it myself, that there was a time when men didn't wear anything but white socks. White

THE POLY-HIGH SITE

Attention is hereby directed to a communication from Col. S. H. Finley published elsewhere in this paper on the subject of the Poly High location.

It is not our intention to engage in any controversy or argument with Col. Finley or any one else on this subject. Indeed we have no desire to controvert Col. Finley's argument in favor of the East Side. It is a beautiful and desirable residence section, and there is much force in some of the arguments Col. Finley presents in its favor. There would have been more force in them, but for Col. Finley's frankness in admitting in one paragraph that he is probably influenced in his opinion and judgment by the fact that his residence is located a mile and a quarter east of town, and in another paragraph stating his disbelief in the possibility of unbiased judgment on the part of the editor of the Register or any member of the school board.

As far as the editor of this paper is concerned, Col. Finley is utterly mistaken. Our statement of what we believe are good reasons why the school should be located in the northern part of the city was made with absolute freedom from selfish or personal interest. Indeed we would personally prefer a location for the school which would not add to the volume of traffic past our residence. That was one of the reasons we tried to buy Col. Finley's lot on East Fourth—because it is a comparatively quiet location.

Just one word more to keep the record straight. Col. Finley insists that the Register "eliminated" the East Side from consideration and refers to "your" (our) "objection to the Grand Avenue site." That is not quite right. The school board "eliminated" the East Side; all we did was to express our approval of that action. SOLELY ON THE GROUND that a location there would involve the crossing of half a dozen or more railroad tracks, the number of which will increase as the city grows.

The Register is not disposed to attempt to unduly influence the location of the Poly-High. It felt that, generally speaking, other things being equal, the northern part of the city was preferable to the southern part. It said so and gave its reasons. It still believes so, and that the reasons given were good. Further than that we have no desire to go.

WE VOTE AYE!

Spurred to action by the Tribune's editorial calling attention to the fact that California would be disgraced this week by killing four men on the scaffold, a body of Los Angeles citizens have appealed to the governor. It is to be hoped he can see his way clear to grant their request for a statewide referendum on capital punishment before any further executions are authorized.

Whether the viewpoint is the one expressed by Senator Hewitt—that in a democracy the people should have a right to record their views from time to time on moral questions like this—or of Reynold E. Blight—that killing by the state is a relic of a barbarous age when blood was shed even for minor offenses—the propriety of the request is evident.

There has been a lamentable lack of thinking on this subject by the public. Successive generations have condoned public executions and acquiesced in the killing of innocent men in many instances—who can doubt it?—because the last generation did it. But that the social conscience has been at work is evident. Juries have so generally recoiled from the idea of sending fellow humans to the gallows that convictions are hard to obtain.

And with startling result. Last year there were in the United States nearly 87,000 homicides, with but 1149 executions. The law providing the death penalty therefore works against the administration of justice instead of promoting it. The illogical theory that the state can stop human killing by doing human killing will not stand scrutiny in the light of experience.—Los Angeles Tribune.

COTTON CROP OF IMPERIAL VALLEY

EL CENTRO, Jan. 22.—Up to Saturday night the cotton gins of Imperial Valley had ginned this season 7310 bales of cotton, as follows: El Centro, 2400 bales; Imperial, 1850 bales; Brawley, 1224 bales; Holtville, 1100 bales; Calexico, 746 bales. This shows that more than two-thirds of the season's cotton crop has been ginned.

SPECTACULAR FIRE IN NEW YORK SKYSCRAPER

NEW YORK, Jan. 22.—One of the most spectacular fires ever seen in lower Manhattan broke out on the thirty-first and thirty-second floors of the City Investment building, 165 Broadway, a few doors from the recently destroyed Equitable building yesterday.

It was extinguished in an hour. The blaze started in the elevator shaft. The damage was slight.

VENTURA COUNTY HAS BIG STOCK OF BEANS

OXNARD, Jan. 22.—Authentic figures, which have just been given out by local lima bean men, show the stock of lima beans in warehouses of Ventura county and other sections of the South to be 383,758 sacks, which is 13,758 bags more than at the corresponding time a year ago. In addition to the increase of beans on hand, the price announced as being received now is \$5.80 to \$4.90 of the year previous.

BRYAN ALSO HAS "NOTHING TO SAY"

LINCOLN, Jan. 22.—In the Common this week, Wm. J. Bryan continued his attack on Harmon, declaring the Ohioan is prejudiced against organized labor. He cited cases to illustrate his point. Bryan today refused to reply to the question as to whether he might be a candidate if Roosevelt is. He looked pityingly at his inquisitor and walked away.

AEROPLANE ICE-BOAT MAKES 140-MILE GAIT

ROCHESTER, N. Y., Jan. 22.—Built along the general lines of an ice boat, but fitted with an aeroplane engine and propeller, a motor ice-boat invented by Lyman J. Seeley, a manufacturer of aeroplane engines in Rochester, yesterday afternoon in its trials on the ice on Irondequoit bay, attained a speed of 140 miles an hour.

WHY THE FARMER WAS INCLUDED

FIFTH ARTICLE

Contributed by the Industrial Accident Board

In the fourth article in this series we showed that it is only through insurance against industrial accident that the cost of accidents can be carried to the ultimate consumer, and we expressed the opinion that under a well worked out system of insurance, at what it is really worth to insure, compensation coverage to the farmer might not exceed one per cent of his average annual payroll. It will be of interest to the farmer to know what insurance rates now are.

The straight liability rate for farm labor, agreed upon by those liability companies that are in combination as to rate making is \$1.50 per \$100 of annual payroll. This rate furnishes a policy that will indemnify its holder against a judgment for damages against him of \$5000 for any one injury or \$10,000 for any one accident where more than one is hurt. If a farm hand be injured, and he sues the farmer who employs him, the company issuing the policy will defend the suit and, if judgment be rendered against the farmer, the liability company will pay the judgment—after it has lapsed the case four or five years and carried it to the court of last resort, provided, of course, that the judgment is not for a greater sum than \$5000 for any one injury.

This is, as we see it, the wrong kind of insurance so far as public policy is concerned. The injured employee is only an incident connected with it and not a party to it. The employer is insured against the consequences of law suits and not the employee against the consequences of accidents, but it does fairly protect the farmer against financial hardship resulting from accidents which befall his men, and it is not exorbitantly expensive. No farmer is going to be ruined by being forced to pay 1½ per cent more wages, \$1.50 per \$100, than he has been paying and that is what liability insurance amounts to, an increase of 1½ per cent in wages.

The compensation rate fixed by the associated companies is \$4 per \$100 of annual wages paid, or a wage increase of 4 per cent per annum. Even this should not spread disaster

and ruin throughout California. For instance, if a farmer has been paying his men \$25 per month, and has to take out compensation insurance to protect himself in the event that they get hurt, that will make the wage cost to him equivalent to \$26 per month instead of \$25. Is that any killing matter?

While under the law of liability for damages the standard policy may not cover the entire risk of an employer, inasmuch as a judgment may be rendered against him for more than \$5000, under compensation the standard policy covers the entire risk for the reason that \$5000 is the outside amount to be paid in any possible event. The coverage is ample to cover all contingencies in all industries.

The Industrial Accident Board is not satisfied that the insurance rates now being charged are as low as they should be, but, as to farming operations, they are certainly not destructive, and it should be as easy to cover UPUPAMNU NU NUN for the farmer to place insurance covering those who work for him as to cover his house or barn, his crop or his automobile, if he has one, and in this rapid age of ours, he is fairly certain to have one.

In Germany there are forty-eight farmers' insurance associations, self governing, except as to certain governmental regulations to insure solvency and the collection of prudent reserves, and these associations insure 11,000,000 farm employees. Why may not the farmers of California organize a few farm mutual insurance associations for the carrying of one another's burdens of accident at actual cost? The only answer is that California has not now any enabling act whereby farmers may so organize, but it easily may have before the year 1913 has far advanced. The Industrial Accident Board intends to present the text of such a law to the next session of the legislature and hopes to have the co-operation of the farmers in enacting that text into law.

In our next article we shall undertake to show the farmer who has paid for insurance covering his risks under the Roseberry law where and how he is to get his money back.

PROTEST AGAINST REDUCTION OF IMPORT DUTY ON RAW SUGAR

(By the Executive Board of the Wisconsin State Union, American Society of Equity, in Session at Madison, Wis., December 28th, 1911.)

The growing of sugar beets on American farms is desirable because:

The crop is less sensitive to weather extremes than many other crops. It is less subject to attacks by plant pests.

Compared with intensive crops it removes comparatively little plant food from the soil.

It acts as a soil conservator by improving the physical condition of the soil and adds to the yield of other crops when grown in rotation.

It increases diversity and adds assurance to the farm income.

It offers a sure market from the fact that sugar beets can be sold at a fixed price before planting.

It increases the opportunity for labor to leave the crowded cities and find employment on the farms.

It eliminates the middle man because sugar beets are sold directly from the farm to the factory, and

Whereas, a reduction in the present rate of duty on sugar would tend to destroy the beet sugar industry in the United States, and

Whereas, it will remove from the American farmer the opportunity to grow sugar beets, and

Whereas, The American farmer needs protection because the farm labor in this country costs more than farm labor in Europe or in tropical countries where cane sugar is produced, and

Whereas, The operation of sugar factories during the winter months, offers desirable employment to idle farm labor, and

Whereas, Sugar is distinctly an agricultural product, therefore be it Resolved, That a sufficient import duty should be retained on sugar to encourage the further development of the Beet Sugar Industry in this country, to the end that the American farmer will grow all the sugar consumed in the United States, and be it further

Resolved, That a copy of these resolutions be transmitted to the Congress of the United States.

EXECUTIVE BOARD, WISCONSIN STATE UNION, A. S. OF E.

Attest: M. WES TUBBS, Secretary.

December 28th, 1911.

Our Washington Letter

WASHINGTON, Jan. 22.—As the work on the Panama Canal draws to a close and it becomes apparent that the difficult problems of construction and engineering have been successfully solved, interest in social conditions in the Canal Zone increases and visitors returning from Colon and other places in the vicinity are eagerly questioned as to "what takes the place of the theater and other amusements in the zone?"

Unfortunately no data are available either here or in Panama to make possible a comparison between this country and the Canal Zone, but it is the opinion of careful observers that the American canal workers have as many breaks, and on the average of as good quality, in the routine of their lives as they had in the cities of the "home country."

Moving pictures, that element of instruction and entertainment second to none when price and ease of accessibility are considered, are the principal source of entertainment in the zone. A large number of "wiggle picture" houses, many of them as elaborate as those in the States, dot the Isthmus and these draw their nightly quota of amusement seekers.

A fact that attracts the attention of Canal Zone visitors almost immediately is that different classes of pictures are popular in different parts of the zone, and the managers, realizing this, cater to the tastes of their audiences. At Empire and Christabul the slaughter of Indians and like Western pictures elicit the most applause; at Gorgona the residents seem to care more for the slightly pathetic or tragic films, while at Culebra, Corozal and Gatun, there is a distinct leaning toward the more romantic scenes.

Much Music and Dancing

The commission clubhouses, as a concession to the demands for dancing and music, have secured the services of bands which play at stated times at the popular clubs, while dances, to which the only necessary invitation is a respectable character, are of frequent occurrence. In addition to this there are a number of minstrel shows given every winter

by organizations in the different cities, while itinerant theatrical troupes have been known to visit the zone. It must be admitted, say the returned visitors, that theaters—as such—are not much of a success in Panama. Amateur theatricals, particularly when the play presented is a well known one, are extremely popular, however.

Last year a choral society was organized at Empire and rendered effectively several oratorios. This year a similar society is practicing at Gatun and a glee club is rounding into shape at Culebra for a tour of the canal villages.

So that the American in Panama, be he visitor or permanent resident, will have but little trouble in finding something to while away the long tropical nights.

Vexing Army Problems

Among the problems which are vexing the War Department and occupying a large proportion of the attention of the officials of the army is the organization of the staff system.

While the present "detailed" staff system—in which officers of the army are only allotted to staff duty for a comparatively short period and then reduced to the line for further practical experience—has many opponents and a return to the old "permanent" system is imminent. Major General J. Franklin Bell, commanding the Philippines Division, in his annual report just transmitted to the War Department expresses himself as being very much in favor of the detailed system and opposed to any change.

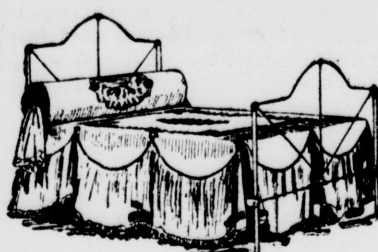

In the course of his report, General Bell says:

"A return to the permanent staff system would have this serious defect, that once inefficient officers become permanent members of staff corps, through influence which need not be discussed, it becomes very difficult for said corps ever to get rid of them. A striking example of this difficulty has just been had in the case of a staff officer who has been hopelessly inefficient ever since he was appointed, more than ten years ago. There are others, almost equally inefficient, whom it would

FINE METAL BEDS AT SPECIAL PRICES

Our stock of Brass and Iron Beds is particularly large just now and you never saw such big values as we are offering. Hard to tell which is the prettiest. If you need one now is the time to get it, for this is the season that our stock is most complete. As usual, the lowest prices prevail. A great saving to you on first-class Beds.

Enameled Iron Bed

\$1.75

Similar to cut. This is a full size bed and a big value at this price.

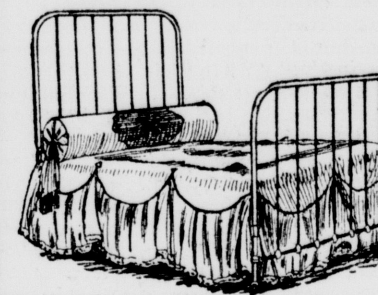

Massive Brass Bed

\$10.50

A genuine brass bed with heavy 2-inch posts and large brass fillers. A bed you would ordinarily pay much more for than the price we ask.

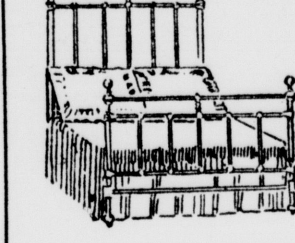

White Enameled Bed

\$7.75

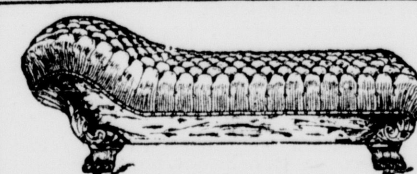

Martin finish, bright gold bronze, heavily lacquered, no tarnish, at \$8.75.

Brass Trimmed Enameled Bed

\$4.75

This bed has heavy brass knobs and brass top rail for head and foot—good solid construction and a most excellent value at this price.

Leather Couch

We have a fine line of Couches in many different styles, the leather couches at \$23.00 are values such as are seldom to be had.

\$23.00

The above are only a few of the many good values always to be found at this store.

DOUBLE WEDDING

Miss Winifred Reid Becomes Mrs. Thompson, and Her Sister Mrs. Torrens

A double wedding took place at the United Presbyterian church between Miss J. Winifred Reid and Miss Joseph P. Thompson and her sister, Miss Cora O. Reid, was joined to James Scott Torrens. The ceremony was solemnized by Rev. W. L. C. Samson, pastor of the church, and the early hour was chosen in order that an early train might be taken for a honeymoon trip. The brides are the daughters of Mr. and Mrs. Thomas Reid of 741 Cypress avenue, and the grooms are both well known and popular in Santa Ana. Mrs. Thompson graduated from the Santa Ana Hospital Training School for Nurses about two years ago, and since that time had been following that profession. Mrs. Torrens was formerly employed by L. P. Hickox, the photographer. The happy couples left for a honeymoon at points not disclosed, and many good wishes go with them.

Pleasant Recital

The little pupils of Miss Helen Hoefler gave a pleasant recital Saturday afternoon at the studio, 1717 North Bush. The following program was rendered:

Step by Step March—Howard Lutz.
Birds' Morning Song—Helen Lutz.
The Crickets—Paul Andres.
Duet—My Mammy's Waltz—Helen Lutz, Charlotte Russer.
The Cowslip—Charlotte Russer.
Duet—Howard Lutz and Miss Hoefler.
By the Brooklet, Reverie—Paul Andres.
Grandma's Step Waltz—Helen Lutz.
Duet—My Papa's Waltz—Paul Andres, Dorothy Summers.
After Wild Flowers—Charlotte Russer.
Garland of Roses Waltz—Dorothy Summers.
The Moth—Howard Lutz.
Duet—School March—Howard Lutz, Charlotte Russer.
Valse, Chopin, op. 64—Miss Hoefler.
After the program Miss Hoefler, assisted by her mother, served light refreshments.

No less an authority than Paderewski has declared that music should be a part of every child's education. He appreciates the fact that music is a study which appeals to and develops practically all sides of a child's nature. Even a slight understanding of music and its manifold nature will readily reveal the truth of this contention.

Are you sure you can justifiably neglect the musical education of your child?

504½ N. Main St. Main 214.

ROYAL ENTERTAINMENT

Delegates to Women's Federation Meeting Report Most Successful Affair

The Santa Ana delegation to the Federation of Women's Clubs returned Friday night and report most successful entertainment while in Ontario and suggest to the Santa Ana ladies that if they ever expect to attain the standard of cordiality and hospitality that the Ontario ladies have already reached they must need open their hearts and homes even more graciously in the future than they have done in the past.

The Current Events Club acting as hostess did herself proud in every way, and with the most cordial welcome extended by the Mayor, all felt that they were truly and heartily received. The entertainment to guests on Wednesday evening consisted of "The Melting Pot," rendered by Rabbi Isidore Myers, and most delightful music.

On Thursday evening a grand reception to delegates with banquet and "Madam Butterfly" presented by Mrs. William Turner, with musical accompaniment.

Friday morning at 11 o'clock a most delightful auto ride was given the visitors. It extended all along the charming tree-lined avenue to the Mt. Baldy trail and even gave a wee taste of the mountain climb that the guests might obtain a grand view of the surrounding country. The trip took in Uplands and Cuernomsa and the expansive Italian vineyard and if the drivers of the autos did exceed the speed limit at times it was not to be wondered at.

The Santa Ana delegates were also taken to the train in autos and with warmest hearts and reluctant adieus were they whirled away from "The City (and people) that Charms."

W. C. T. U. Meeting

The W. C. T. U. will meet on Tuesday at 2:30 p. m. at the home of Mrs. W. L. C. Samson, 216 Orange avenue. This is a mothers' meeting. The subject is "Present Day Amusements." Mrs. Clay Kellogg will have charge of the program. A round table discussion will be held and Rev. Samson will give a talk on the subject. All are cordially invited, especially mothers.

Bride-to-Be Honored

Miss Thomas and Miss Hazel Thomas were the hostesses at a dinner Saturday evening in honor of Miss Hazel Baker, who is to be married next Thursday. The decorations were in pink roses, and the tables bore candles with pink shades. The place cards were in pink and white. The guests were Miss Baker, Miss Hazel Baker, Misses Shirley Thomas, Florence Mullinix, Carrie Yoch, Ethel Roper, Amelia Edgard, Virginia Clayton, Lois Tedford, Mrs. Will Spurgeon, Miss Beckett, Miss Dorothy Duncan and Miss Grace Parker, of Los Angeles; Mrs. Hugh Plumb, Mrs. Harris Taft, of Santa Monica; Mrs. Baker, mother of the bride-to-be, Miss Davis, Miss Shatto and Miss Porter of Orange.

A. W. L. Social

The Santa Ana Chapter of the American Woman's League held a most enjoyable social meeting at the cozy home of Mrs. Batchelder, 404

West Second street Saturday afternoon. This was the third social in the series given by the league and while it was well attended those who were not there certainly missed a treat.

These get-acquainted socials are getting to be quite a feature in the chapter and are certainly proving most enjoyable.

In the course of the afternoon Mrs. W. A. Moore pleased with two comic dialect recitations, which were hugely enjoyable.

The meeting Saturday was termed a genuine league luncheon as the recipes for the dainty dishes, the Waldorf salad, the cheese straws, etc., were taken from the last issue of the Woman's National Weekly, the official organ of the American Woman's League.

Monday Club

The Monday Club will meet tonight at 7:30 sharp at Library hall. The paper will be read by P. L. Tople on the subject "Strikes as a Factor in Progress."

Brotherhood Installation

Santa Ana Lodge of the Fraternal Brotherhood had installation of officers Friday evening, and in honor of the occasion a chicken supper was given by the losers in the recent membership contests, said losers being the Poinsettias. The table was profusely decorated with these flowers, and pointsettia napkins were used.

During the business session two new members were initiated into the mysteries of the order. Following were the officers installed:

Past President—F. L. Mitchell.
President—L. F. Harvey.
Vice President—Mrs. Kate Rockefeller.
Treasurer—N. L. Galbraith.
Secretary—Helene Galbraith.
Chaplain—G. W. Rockefeller.
Sergeant—F. H. Mitchell.
I. D.—W. Burr.
O. D.—Allan Schreff.
Musician—Miss Leora Buchanan.

Birthday Party

Saturday was the first birthday of Forbes Freeman, the little son of Dr. and Mrs. S. P. Freeman, and in the afternoon seventeen of the members of his "set" joined him in celebrating the occasion with a birthday dinner and party. The decorations for the occasion were carried out in white, pale blue and green, and the flowers were forget-me-nots. The birthday cake was in the shape of a large heart, with the celebrant's name and age inscribed on top. The ice cream and green leaves on top, and the place cards were white with names on them. During the afternoon games were played and prizes given to the most successful.

The little folks who enjoyed Master Freeman's hospitality were Helen and Ethel Huff, Gwen Hoyle, Bud Hough, Enid, Gerald and Eric Twist, Eleanor Embree, Charlotte Moulton, Louise Robertson, Grace Robertson, Mabel Robertson, Susie Temple, Geneva Lang, Thelma Bates and Madeline Van Derlin. The "grown-ups" present were Dr. Waffie, Mrs. Roscoe Whitfield, Mrs. Chas. Huff, Miss Campbell, Mrs. Haskins, Mrs. Embree, Mrs. Sexton, Mrs. A. C. Twist, Mrs. Chas. Twist, Mrs. Norman Hoyle, Mrs. Robertson, Mrs. Huddy, Mrs. Moulton, Mrs. Mark Lacy and Mrs. Van Derlin.

Household Economics

The Third section of the Household Economics of the Ebell Club met Friday at the home of Mrs. E. A. Stockstager, Mrs. A. Getty assisting the hostess. All members were present but three. The subject for study was "Soups."

The hostess had carefully prepared blank booklets for each member, into which they wrote their favorite recipes for soups.

Mrs. J. E. Paul's paper was both instructive and entertaining. She also read a poem, "The Empty Pantry and the Seven Guests," which was excellent.

After the business session the ladies repaired to the dining room where a profusion of violets added to the charm of the well appointed table. A two-course luncheon consisting of oyster soup and cake and coffee was served.

Goes to Redlands

The many friends of Miss Margaret Lacy will learn with regret that she has resigned her position at the Orange County Business College, and is soon to leave Santa Ana to assume her duties as manager of a business college at Redlands.

Miss Lacy has held the position of principal of the Shorthand and English departments of the local school during the past two years, and the present standing of the school is due largely to her untiring efforts for its success.

The students who have come under Miss Lacy's influence during her connection with the business college here have always felt that in her they had a friend who was not only interested in their success, but one to whom they might turn at any time be sure of the advice and help which they sought.

Miss Lacy will be greatly missed, not only from the school, but from the community as well. Her friends wish her success in her new position.

J. W. Shaul, M. D., eye, ear, nose and throat. Glasses fitted, 110½ East Fourth St., Santa Ana. Both Phones

F. H. BAKER and Family.

Some Questions

How far is it a cry? Is it wrong to steal a march? Can you hum an air of unconcern? Does it hurt to be struck by an idea? Did you ever see the shadow of a doubt? Can the voice of conscience be cultivated? What artist painted the picture of health? When the welkin rings who answers the ring? What florist raises the pink of propriety? When Fortune smiles does she show her front teeth?—Boston Transcript.

Scandinavian Courtship

It was considered beneath the dignity of a Scandinavian warrior to court his bride by gallantry and submission; he always waited until she had bestowed her affections on another and was on her way to the marriage ceremony, then collecting his faithful followers they well upon the wedding party and carried away the bride. It was much in favor of this practice that marriages were always celebrated at night.

Dust and Disease
Out of every thousand of those whose occupation calls for constant work in dusty quarters five die of consumption, according to German official figures, whereas among those who are not exposed to the action of dust only two out of a thousand die of the disease named.

A Winner

"Boy, take these flowers to Miss Bertie Boohoo, room 12."
"My, sir, you're the fourth gentleman who's sent her flowers today."
"What's that? What the deuce? Who sent the others?"
"Oh, they didn't send any names. They all said, 'She'll know where they come from.'"
"Well, here, take my card, and tell her these are from the same one who sent the other three boxes."—Tit-Bits.

Linen Breeches

Linen breeches were worn by men in 1491 B. C. They also at that period wore embroidered coats, besides bonnets "for glory and for beauty."

Bamboo Houses

In the building of bamboo houses in Japan no nails are used, the parts being bound together by lashings formed from the skin of the bamboo itself.

LARGE AUDIENCE SEES SOCIALISTIC PLAY

A large and appreciative audience at the Grand Opera House Saturday night witnessed the production of "The Landslide," written by Austin Adams of San Diego, who was the Socialist candidate for governor some years ago. The play is a clever study of the question of Socialism looked at from both sides, and abounds in clever hits. All these were greeted with generous applause. Both sides being apparently well represented in the audience, and both the epigrams, upholding Socialistic doctrine and those deriding it were well received. The entire action of the play takes place in Southern California, and the staging was appropriate and handsome, as were the accessories. The Indian blankets, curios and blankets used were from Ramona's marriage place. The cast was satisfactory throughout.

BIG MINSTREL SHOW HAS ARRIVED AT THE TEMPLE

Santa Ana people will have a real treat tonight and Tuesday night, in the big program prepared by the Santa Ana Minstrel Company. More than a two hours' entertainment will be given, consisting of a real minstrel first part, in which the entire company of burnt cork artists, as well as their own band, will take part. Big feature numbers will be introduced. Everything has been carefully arranged and looked after, particularly the singing and musical numbers. They will be the best in their line ever heard in Santa Ana. Good comedy pictures are to be shown, and the whole show is gotten up for laughing purposes only. If you have the blues, or if you are down in the mouth, this is the cure for you. One show night, beginning at 8 o'clock sharp. Prices 15c, 25c, 35c. Reserved seat sale at Shaffer's Music Store.

The "Barrier" May Play

Manager Ulm of the Grand Opera House has an option on the date of Feb. 5th, for the appearance here of Klaw & Erlanger's New York success of Alaskan life, "The Barrier," which is now making its first transcontinental tour through the chief cities of the middle west.

The book is to be found in every home, and no story of Alaskan life has ever been made such a truthful and realistic stage offering before.

The company is an expensive and talented one. The expenses are heavy. The tour is limited to the reading and appreciative centers where guarantees are procurable, and if a due amount of interest can be worked up, and sufficient names secured for seats in advance, the date will be secured.

FOR SALE—White Wyandotte eggs for hatching. Mrs. E. H. Scott, 252 North C street. Red 3212.

Col. S. H. Finley Strongly Defends The "East Side"

Editor Register:

In response to your request in a recent editorial, for expressions of opinion as to the proper location of the polytechnic high school, I will change my previously formed decision not to enter into the discussion, and give a few facts or local prejudices, whichever they may be called. My decision to have a say is influenced largely by your recent article placing the East Side, together with the South Side of the city, in the (as per T. R.) "undesirable class." Since the eastern portion of the city has not a single representative on the Board of Education or advisory board, while the north part has six, it might not be thought impertinent for an east side private citizen to express his opinion in defense of his locality.

The editor of the Register lives at Main and Eighteenth streets, one mile north of the business center, while my home is at Fourth and Wright, one and one-fourth miles east of the same point. I am perfectly willing that everyone should take into consideration the fact that both of us are probably influenced by our location. I do not think that any locality in this city is superior, for an attractive home section, to that east of the railroads, and I only have to quote as authority the editor of the Register, who, prior to building his beautiful home on North Main street, made unsuccessful advances for the purchase of the tract on which I now live, with a view to making his home there.

Your objection to the Grand avenue site is that it is necessary to cross the railroad tracks to get to it. Your readers will now expect you to be consistent and give as much prominence to your objection, on the same score, to the Santa Clara avenue site. It is across the railroad. We shall see.

One member of the board or committee, before the bids were originally filed, tried to discourage the owner of the Grand avenue site from submitting his proposal by stating that it could not be considered, and gave as a reason that it was so close to the railroad tracks that the movement of the trains would jar the fine instruments in use in the school. Later the same party favored the Cole site, which was twice as close to the railroad track as the Grand avenue one. Do you see the tendency? It is dangerous to cross railroad tracks in the other fellow's part of the city, but not in ours. Railroad trains make more noise and shake the ground worse in another part of the city than they do where we live.

I mention the above instances, not in a spirit of censure, but to show how extremely difficult it is for us to be impartial where our personal interests are involved, even with the best of intentions on our part.

A point or two in which the Grand avenue site excels. The character

of the soil is unsurpassed, for the intended purpose in this valley. Its convenience to those who would attend and the traveling public is excelled by no other site. Every electric street car in the city, except the Huntington Beach cars, reaches to within two blocks of it, and the Huntington Beach car turns west on Fourth street only a few blocks away. It is within sight of the Santa Fe and Southern Pacific railroads, and where it can be seen by every passenger on these trains passing through the city. It is in line with the future expansion and growth of the city and community, being toward the show part of our valley that is directly tributary to Santa Ana, namely the orange and lemon groves, Tustin and the foothills, all of which territory is bound to be thickly settled and highly improved within a few years.

I disagree with you in your belief that our expansion will be northerly, for the reason that the Orange Union High School district reaches our city limits on the north—less than on-half mile from Santa Clara avenue. That territory is within the sphere of influence of Orange, and I cannot conceive of any condition that would cause it to be annexed to this city rather than to Orange. Orange is already provided with an excellent High School, is abundantly able to improve its equipment and will do so rather than depend on Santa Ana. She does not need nor deserve our school located in a position as convenient for her scholars as a large majority of our own, which would be the case were a site near Santa Clara avenue and beautiful Main street selected.

Tustin and the smaller districts south and west of the city do need high school privileges, and if our school is located convenient for them, they probably will always patronize ours, which would be a strong bond of union between us and our neighbors. If the tuition is put on a fair basis—a proper proportion to cover cost of operation and interest on bonds—these adjoining districts will doubtless sooner or later be willing to unite with our district in a union high school rather than build one of their own. It is unfortunate that a little more deliberation was not exercised before calling the bond election, and try to bring that about at the present time.

For the reasons above stated I am willing to risk my judgment against yours, as more nearly gauging the future, and state that I believe that within the next ten years there will be two building permits issued in your taboored territory—south of Fourth street and east of the railroads—to every one in the rest of the city, taking the official record as evidence. The high school should be built for the future.

Yours truly,

S. H. FINLEY, 1633 East Fourth St.

Automobile With Four Occupants Trembled on Brink of Canyon Bluff

Going down a grade in the Santa Ana canyon yesterday evening, a wheel of Joseph Smith's automobile broke off and rolled over the grade. The automobile itself stopped upon the edge, and the occupants thus experienced the narrowest escape of their lives.

Those in the machine with Smith were E. S. Morrow, county manager of the Pacific Telephone Co., and his wife and William Strausberger, the Rossmore Barber Shop. They had visited San Bernardino and were on the way home when the accident occurred.

The grade lies this side of Alta Vista. Smith was proceeding very slowly, and that alone saved the machine from pitching off the grade, forty feet down a steep incline.

Rounding the curve, one of the front wheels suddenly broke off and rolled down the bluff. Those in the machine jumped to the ground, but would not have had time to do so had not the axle caught in the earth at the edge of the road.

This was about 5:45 o'clock, and the automobilists were in a predicament. After a half hour's work, the three men got the wheel to the road, but the break was a clean break, probably due to crystallization.

While Smith and the others were wondering what was best for them to do, Mr. Lush, a garage man of Orange, came down the canyon. He examined the broken machine, went on and as soon as possible returned with the necessary parts. The automobile was mended and the Santa Anas reached home after midnight.

MATCHES AND GIRL START A FIRE

Orange News: A large shed belonging to Mrs. Emily V. Reed on South Center street was burned this afternoon, when a little girl playing with matches set fire to some paper inside the shed.

The fire broke out about 2:30 p. m. and in several minutes was a roaring blaze, the flames scorching a tall cypress tree which stood near one corner of the shed. Adjoining sheds were threatened for a time, but the arrival of the fire company gave another complexion to the matter. The department soon had things all their own way, but the shed was a mere shell with a blackened interior, when the flames were extinguished.

It was reported that there was nothing of particular value consumed in the fire.

India

There is no Indian nation, and the nations of India differ not only in interests, history and tradition, but they differ in regard to race feeling, and there are strong hatred and jealousy between parts of India still. There is nothing that keeps the peace in India but British rule.

"I'll bet that man is the father of six or seven children."

"Why?"

"If he had less than three he'd be bragging about them."

The Suspicious Chauffeur

"Slow down, please, chauffeur. I see some curious red ferns."

"Better lemme keep going, sir. I think those are the local constable's whiskers."—Answers.

The Red Hand

The red hand in heraldry is the distinctive badge of baronets.

ARE TALKING OF SELLING RESERVOIR

Newport News: There seems to be considerable opposition to the trustees selling the concrete water reservoir on the mesa to the Townsend-Vanderwater Company. The matter will be brought up at the next meeting of the trustees and those opposed to the plan should be present and voice their protests and not do their kicking on the streets afterward.

OUR NEWSY LETTER FROM THE UNIVERSITY OF CALIFORNIA

BERKELEY, Jan. 22.—The new year has begun with a registration of 3013 undergraduates, 303 more than on the corresponding day a year ago. This means an increase of eleven per cent in a single year in the number of freshmen, sophomores, juniors and seniors enrolled at Berkeley. Besides these, graduate students enrolled to the number of 381, making a total of 3394 students at Berkeley. The students in San Francisco, at the University farm, in the summer session, etc., will bring the university's total registration for the year well above six thousand.

The good care taken of the health of the students is shown by the fact that there 11,777 consultations or treatments at the student infirmary during the half-year which ended in December. During the same period there were 197 students who became bed patients at the infirmary, and 21 operations were performed.

During the Christmas holidays the University Glee Club visited the Northwest, giving with much success concerts at Portland and Eugene, Oregon, and at Seattle, Tacoma, Olympia, Hoquiam, Aberdeen, and Everett. The Mandolin Club meanwhile visited the Hawaiian Islands on a concert trip.

Nineteen essays were submitted in the competition for two prizes of \$600 and \$400 each, offered by Regent Truxton Beale, for essays on Tolstoy's book, "What is to be Done?" The prizes will be awarded by a jury consisting of Professors Newcomer of Stanford, Leo Wiener of Harvard, and W. C. Mitchell of the University of California.

Mr. F. M. Smith of Oakland has provided \$3000 to support for two years a fellowship, the holder of which is to investigate the future needs of Oakland, Alameda, Berkeley and the other communities of the east side of San Francisco Bay as to parks, playgrounds, and similar public breathing places.

For the first of the university meetings of the term, the speakers were William Shakespeare of London, a Fellow of the Royal Academy of Music, distinguished as musician and composer, and A. C. Miller, flood professor of Political Economy and Commerce, who had been on leave of absence for the first half-year.

The Hitchcock lectures, a yearly

course of lectures on scientific and practical subjects supported by an endowment provided by the late Charles M. Hitchcock, will be given this year by Dr. Richard Mills Pearce, professor of Research Medicine in the University of Pennsylvania. His fine evening lectures, from January 22 to 26, will deal with "Research in Medicine," a subject he is particularly fitted to treat since he has himself made important discoveries in the study of diphtheria, scarlet fever, and diseases of the kidney.

The red scale, a dangerous enemy of every citrus region, in fighting which hundreds of thousands of dollars are spent in California every year, is described and means for combating it is set forth in a bulletin by Professor H. J. Quayle, just issued by the university, which may be obtained by writing to the Agricultural Experiment Station at Berkeley. Professor Quayle's investigations were carried on at the University's Southern California pathological laboratory at Whittier. Among other bulletins by Professor Quayle, which the university distributes are "Spraying for Insects," "Mosquito Control," and "The Grape Leaf Hopper."

Sir Robert Ball, long Astronomer Royal of Ireland, one of the most distinguished of British astronomers, has recently expressed high praise for the work of Astronomer R. G. Aiken of the Lick Observatory in having discovered and determined the position of more than twenty-four hundred new double stars.

That the enormous beds of kelp which grow along the Pacific shores of the United States represent an undeveloped source of great national wealth is suggested by Professor W. A. Setchell, head of the Department of Botany of the University of California, in a report to the United States Bureau of Soils. At present the United States imports more than fifteen million dollars worth of potash yearly from Germany. Professor Setchell estimates that a million tons of potash, worth forty million dollars, might be obtained, not once only, but every year, from the kelp beds along the California, Oregon and Washington coast. Besides potash, he has used for fertilizing farms, this seaweed could yield also, he says, iodine, glue, shellac, paper, and food for both man and beast.

Raising of Peanuts Is A Successful Pursuit

(Mid-Winter Number of Times)

For more than thirty years peanuts have been grown in and around Tustin, but being one of the minor industries of the county, it is perhaps the least known of all. Our Department of Agriculture tells us that the peanut is not a nut, strictly speaking, but the fruit is of a leguminous plant (Arachis hypogaea) related to the pea and bean. As to its native home, the opinions of botanists are divided between Africa and America.

Probably the largest acreage ever planted in the county was that of 400 acres on the great San Joaquin ranch three years ago, when about 1000 acres was set to young fruit and walnut trees. The goobers were raised between the rows of these trees for the purpose of helping out with expenses until the trees were in bearing. Light sandy soil was selected for the peanuts, while the heavy adobe portions of the great orchard were devoted to peas and beans. But two varieties were cultivated on the ranch—the large Virginia peanut and the little Spanish. The latter must be put through the sheller, as its tiny size renders it unmarketable in the shell. The larger kind is sometimes shelled, but generally to order, for which 15 cents a sack was charged.

Peanuts are great soil rejuvenators. They have the power of extracting the nitrogen from the atmosphere, storing it in the roots and vines, and finally transferring it to the soil. It is true that peanuts take potash and phosphoric acid from the soil, but the nitrogen they leave is more valuable than the elements they remove. About fifty pounds of unshelled nuts are required to seed an acre. They are shelled carefully by hand, and planted by means of a machine that sows four rows at a time. To insure plump, sweet kernels, the vines are given

plenty of water and kept free from choking weeds. Fifty men were employed to hoe the weeds out of the vines on that 400-acre field.

A loose, sandy soil is needed to permit the little peduncles to enter the ground and get a thrifty start, for it is there the young nuts are produced. These peduncles form under the blossoms and do not appear until the pretty yellow flowers bloom and drop off. The peanut vine is a vigorous grower, like a deep, fresh green and is a beautifier of the landscape. The vines make rich feed for stock, and are excellent as a fertilizer. The seed is planted in the spring as soon as the weather is warm enough, generally in May. In October or November, when the nuts ripen, the vines are cut loose from the soil by machinery and turned over to dry in the sunshine. The peanuts are picked by Mexicans, who generally get about two sacks a day, for which they are paid 25 cents a sack.

It is a sight quite and picturesque—those Mexican families at their work. Many gray-haired men and women are among them. But the bright "senoritas" seem to enjoy the monotonous handling of the goobers out in the warm autumn sunshine. There, by the dry brown hills, with the endless stretches of the great ranch about them, they give themselves up to the sweet influences of "the land of the afternoon" and labor at filling the coarse sacks as their fancy dictates.

About six weeks were required to pick the crop of the San Joaquin ranch, so these lowly people pitched their tents on the ranch, as near to the peanut vines as possible. Their camp, from its accompanying guard of all sorts and conditions of dogs, puts one in mind of a Gypsy settlement.

Spanish nuts were threshed through an eight-horse power machine that

had a capacity of 150 sacks a day. There also was a machine of half that power for threshing the Virginia peanuts, of which 300 sacks a day were run out. From the field the nuts were hauled to the mill at Tustin, passed through a roller to remove the adhering soil and afterwards put into a separator where the remaining dirt was fanned off. Eight girls stood at the separator to pick out the dark and broken shells as the nuts were carried over a moving canvas band into sacks below. The separator required four men in its operation.

The maximum yield of peanuts to the acre is 2500 pounds, the minimum about 1500 pounds. The yield from 300 acres the previous season amounted to 400,000 pounds of nuts, valued at \$16,000. From the 400 acres the crop was expected to be about 400 tons, but there were many disadvantages connected with the industry that season that resulted in reducing the output about one-half. The land never had been planted before, and the new electric pumps at the wells were not in working order early enough in the season to get the water on the vines at the time they were most in need of it. Then the rains came earlier than usual, soon after the vines had been cut and uprooted. However, the nuts escaped injury by drying out in the sunny days that followed, and the half-crop was a fairly good one. It found ready sale in Los Angeles where all the former peanut crops had been marketed, and where about all the California production is sold.

After long experience here, this grower learned that the industry is a paying one when a small acreage is planted, for example, 30 or 40 acres, or when the nuts are grown between orchard rows to help meet expenses. Otherwise he considers the good land required for the work here in Southern California too valuable to be given up to such a hazardous venture. Better returns are received from crops that are benefited by the rains instead of being destroyed by it.

In Fullerton the goobers have been grown successfully for a number of years. A few seasons ago E. W. Brewer brought out that extraordinary production, the Placencia Wonder, a giant peanut which, with its increased size, retains all the good points of the smaller varieties. It sprang from seed obtained in the east at \$1.10 a pound, and produced at Fullerton more than a ton of these giants to the acre. All the success was attributed to soil and climate. These huge nuts were raised between rows of orange trees on the Brewer ranch.

This industry would be carried on more extensively in Southern California, but for competition with Japan. Imports from that country now supply 90 per cent of the unshelled peanuts used on the Pacific coast. As there is a smaller demand for California peanuts at better prices than the Japanese, the few growers that still raise them get very fair prices, but any considerable increase of acreage would cause the price to drop so low as to be unprofitable. There were enough difficulties to contend with in growing peanuts in California, without having to compete with the Japanese article produced in Asia, where farm labor is worth only 10 or 15 cents a day. As the tariff on peanuts is insignificant it is inevitable that the Japanese will continue to supply the Pacific Coast market, and with the opening of the Panama Canal will no doubt compete on the Atlantic coast with the Virginia article.

ELITEA EMBODY.

Not a Spendthrift

In the state of Georgia lives a banker who is known behind his back as the Human Safety Clutch. He has been accused of being nearly everything except a spendthrift.

He lives a mile from town on a plantation. One Sunday he remembered that he had left some important papers on his desk, and he gave an aged negro servant on the place his keys and sent him for the documents.

It was a hot day and the road was dusty, but in an hour the old darkey returned with the papers intact. The owner felt in all his pockets.

"That's too bad, Uncle," he said finally. "I thought I had a nickel here I was going to give you."

"Marse Henry," said Uncle Jim, "you look again. Ef ever you had a nickel you got it yit."—Saturday Evening Post.

The Height of Happiness at His Age

In what pleasure we find our greatest enjoyment depends much on our age; at one time of life we may like one thing best, at another time another. Here was a small boy rolling along the sidewalk in one of those hand-operated wagons which he was propelling with one hand, while in the other he held an ice cream cone which he was eating as he rolled. He was probably the highest attainable happiness at his age.

Our Mental Horizon

In childhood we fancied ourselves walled in by the horizon, as by a glass bell, and doubted not, by distant travel, we should reach the paths of the descending sun and stars. On experiment the horizon flies before us, and leaves us on an endless common, sheltered by no glass bell. Yet 'tis strange how tenaciously we cling to that bell-shaped horizon, as a protected domestic horizon.—Emerson.

Helium in Mount Vesuvius

Helium, the "sun metal," thus named because it was found in the sun by spectroscopic observation, before it was known to exist on the earth, appears to exist in perceptible quantities in a number of minerals exuded from Vesuvius, and also in the air about Naples.

ity for the House
Furnisher.

ORANGE TEAM IS CHAMPION

Basketball Game Saturday Af-
ternoon Takes Honors to
the VisitorsBrilliant Game Put Up By Op-
ponents Defeated Santa
Ana By Two PointsAt 2:30 Saturday afternoon, in a
hard fought game, the girls' basket-
ball team of Santa Ana High, lost to
the team from Orange, by a score
of 6 to 8. In the beginning of the first
half, Santa Ana showed a superiority
in the game and made three points
through the fouls of Orange. Santa
Ana kept the ball in her territory most
of the time, but failed to make more
than one basket.The game was followed closely by
a much excited and exceptionally
large crowd.In the last three minutes of the first
half, Orange came through with a
brilliant burst of speed and team work
that gave them two baskets.In the second half, Orange came
back strong, showing speed, their ef-
forts being rewarded by two more
baskets. Santa Ana, from the start
greatly weakened by the loss of two
of her best players, secured but one
point in the latter part of the game.This game gave to the Orange girls
the title of champions of Orange
county. This honor has been held by
Santa Ana for several years and it is
not without regret that they part with
it.Tuesday afternoon, January 23, at
3:30 the inter-class track meet will
be held, at Lincoln Park. Santa Ana
has the prospects for a good showing
in track this year. The public will be
welcome at the field at this time or

FATAL AUTO ACCIDENT AT VENICE YESTERDAY

VENICE, Jan. 22.—Floyd Richert,
133 Clay street, Los Angeles, was
probably fatally injured, and Charles
Santher of San Francisco sustained a
broken hip and was more or less
bruised about the face and shoulders,
when the automobile in which they
were riding skidded and ran into a
telegraph pole at Frederick station,
just east of here, early yesterday
morning.

SEVEN GUARDS FOR ROCKEFELLER HOME

YONKERS, N. Y., Jan. 22.—Sheriff
Doyle of Westchester county will ap-
point this week to guard John D. Rock-
efeller while he is at his summer
home in Pocantico Hills. This oil
king had seven deputies scattered
over his vast estate last year, and
his superintendent desires them all
reappointed by the new sheriff.

MRS. BELMONT PLANS NEWSPAPER FOR WOMEN

NEW YORK, Jan. 22.—A daily
newspaper devoted solely to the in-
terests of women is the latest project
planned by Mrs. Oliver H. P. Bel-
mont to bring to woman her social
and political due. It will be written
by women, managed by women and
about women.

PENNSYLVANIA MAN MINISTER TO PORTUGAL

WASHINGTON, Jan. 22.—President
Taft today sent to the Senate the fol-
lowing nominations: To be Minister
to Portugal, Cyrus Woods, Pennsylv-
ania; to be federal judge of New Mex-
ico, William H. Pope; to be federal
attorney of New Mexico, Stephen
Davis, Jr.

SUPREME COURT RULES ON LIQUOR SHIPMENTS

WASHINGTON, Jan. 22.—The Su-
preme court today handed down a
decision stating that liquor may be
shipped from one state to dry coun-
ties in another state, although the
second state's laws may prohibit
such shipment.The court's decision was in the case
of the F. W. Cook Brewing Company
of Indiana versus the Louisville &
Nashville Railroad, for refusing to ac-
cept consignments of beer to dry coun-
ties in Kentucky. The court held the
road was compelled to accept such
shipments.Life is too short to waste time and
strength washing clothes over a
smoky bonfire in the back yard. Try
us on rough dry work and see how
reasonable is our price. The Peoples
New Laundry, 901 East Fifth St. Both
phones.—For months past no car in Cali-
fornia has enjoyed the immense sale
of the E-M-F "30" and Flanders "20."
And sales are significant. Visit our
salesroom. Wm. F. Lutz Co.

Take Hall's Family Pills for constipa-
tion.Drs. Rossiter & Paul, Dentists, cor-
ner Fourth and Main Sts.

MAKES ESTIMATE ON CITRUS CROP

Eastern Man Figures It at
36,500 Cars—Little Dam-
age From FrostSAN BERNARDINO, Jan. 22.—The
citrus fruit crop of Southern Califor-
nia this season will be approximately
36,500 cars, according to the state-
ment of J. S. Leeds of Chicago, man-
ager of the Santa Fe Refrigerator Dis-
patch. Leeds has just completed a
tour of the fruit district and after an
inspection of the frost damage, de-
clared that the loss is far less than
reported first. "I will take to Chicago
with me," said Mr. Leeds, "a very en-
couraging report on the fruit situation
in Southern California." The estimate
was made in order to determine the
number of cars the Santa Fe will have
to furnish in moving the crop east-
ward.

WILL SHOW SYSTEM MODERN IRRIGATION

SAN BERNARDINO, Jan. 22.—A
modern irrigation system in actual
operation will be one of the attractive
and instructive features of the Na-
tional Orange Show at San Bernar-
dino the week of Washington's Birth-
day, February 19 to 24.The life giving waters will be seen
filtering down from the eternal snows
on the sentinel mountain peaks,
through the headgates and cement
lined canals and on through the pipe
lines to the real live orange grove,
where the water is applied to the soil.The system will be complete abso-
lutely in every detail and will be one
of great educational value, especially
so to the easterner who may not com-
prehend or understand the irrigation
methods of the California orchardists.
Here the entire plan and idea can be
caught at a glance.This model and Modern Irrigation
system, just such as may be seen in
any of the progressive fruit districts,
with real water running through it,
will be one of the score or more of
notable and distinguishing features
which will be on display at the Na-
tional Orange Show, all designed to
bring vividly to the mind of the vis-
itors the magnitude and value and stu-
pendous amount of capital invested in
the citrus fruit industry in California.More than 200 San Bernardino citi-
zens, beside the executive officers of
the show, are giving much of their
time and money and efforts to make
the show the most magnificent dis-
play of its kind ever held on the Pa-
cific coast.—The Flanders "20" is on exhibi-
tion at our salesroom this week. We
are showing a cut out chassis of this
car showing the operation of all me-
chanical features. Wm. F. Lutz Co.See the new Racycles at Coleman &
Hoxsie's, 217 West Fourth St. Both
\$40.00 and \$50.00 models.—Phone us your orders for Teas,
Coffee, Spices and Cereals and they
will be delivered promptly. Premium
coupons given. American Tea Co.

IN THE JUSTICE'S COURT

ORTEZ FINED BY JUSTICE

Poolroom Keeper Pleads
Guilty to Kicking Small Boy
at Los AlamitosEdugurenez Ortiz, a Los Alamitos
poolroom keeper, spent several days
in jail and this morning paid a fine
of \$30 for having kicked a boy, the
son of Mrs. C. M. Heying of Los Ala-
mitos.Ortiz became displeased because
two or three boys were teasing some
of his children. He caught the Heying
boy and kicked him several times.
When the matter came up in Justice
Cox's court today, Ortiz pleaded guilty
and was fined \$30, which he paid.Gordon Is Held
John A. Gordon, the box-car robber,
was arraigned in the justice's court
this morning, and his preliminary set
for Feb. 6. Gordon was captured by
C. E. Rotherhoefer, a Santa Fe de-
tective, and Officer Hamilton Gordon
was making away with two dozen
pairs of shoes stolen from a box-car.Two Complaints
Two complaints were sworn to this
morning by Lucio Savala against Jose
Rincon of Anaheim. Savala also lives
at the Mother Colony. He says that
Rincon while intoxicated disturbed the
neighborhood in various ways. One
complaint charges disturbance. The
other charges that Rincon took a
hatchet to Savala's floor and chopped
out a part of it. Malicious mischief is
the technical name of the charge.Hold your order for the New Reo
the Fifth, the only car, with a self
starter and right hand center control,
selling for less than \$3000.00.
